

# David's 2014 Christmas Quiz

## "Colourful People"

We invited 30 'colourful' people to a party. All their names contain a 'colour' - not always obvious - and all colour names are different (including 4 common French words). We set out six tables with different 'themes' and appropriately coloured seats. The heads of the tables (who's surnames are colours) are in place; the rest are waiting to be seated.
